9. Do you have any other comments to add to your evaluation?

*Please provide any additional constructive comments*

- GOOD TA
- Great TA. He was very good at simplifying concepts and teaching them, and responded to my emails very quickly. Couldn't really ask for a better TA.
- He is very good TA. I wish he will be my TA again in next quarter.
- he was extremely helpful and easy to approach. he was always available to help and responsive to emails and questions. took care of his students and was easy to interact with.
- I hope he will TA 180C. I appreciate the copious amounts of office hours he has
- In every discussion section, he doesn't just answer the hw questions. Jeremy gives us the key words and methods of the hw, like what kind of formulas we have to remember. I am so lucky to have him in 180A&B, I hope to see him in 180C
- Jeremy also had more office hours than I've ever seen any other TA offer.
- Jeremy is awesome! He makes Math fun. He makes math understandable using lower division math classes.  
I strongly recommend him
- Jeremy is great! Did a great job providing solutions and breaking the course down into more understandable/relatable terms. He also gave us a few "bonus" questions not presented in lecture that were fun and challenging and helped with my overall understanding of the course
- Jeremy is one of the few TAs that seems to genuinely care about his students. He is always upbeat and answers "stupid" questions in a respectful manner. He has a knack for explaining difficult concepts in a simple way that is easy to digest. I would highly recommend Jeremy to future students. Hands down, the best TA I've had at UCSD.
- Jeremy was very patient with all of the students. He explained problems in great detail in discussion and in office hours. During office hours he took a great amount of time to make sure that we all understood what he was talking about and what he was doing. His homework grading and exam grading were very fair.
- Keep doing exactly what you are doing. It is incredibly helpful. Maybe try to answer the "harder" homework questions that engage many aspects of the chapter rather than the trivial problems that some people have trouble computing and help them later.
- Solid TA. No particular criticisms. Nice job!
- Such a smart guy and extremely hot
- Very nice T.A. Always prepared and summarized materials really well. Very helpful in office hours
